BEET SEED.

WOODRUFF'S EARLY WONDER BEET.

In our close touch with the largest market gardeners of the country we have met with a universal demand for a finer strain of extra early beet than they were able to obtain from any known source.

To meet the demand became our aim and five years ago we introduced this greatest of all early Bunch Beets. Our annual sales are into the tons.

This new beet is selected for its extreme earliness, having a small top, beautiful dark red color, small tap-root, smooth surface and evenness in maturity, enabling one to clean-off the piece all at once, ready for the next crop, and while they still are bringing the early high prices.

We offer this at the following prices: 10c per pkt.; 40c per 1-4 lb.; \$1.25 per lb.

(Add 8c a lb. if sent by mail.)

SWEET, POT AND MEDICINAL HERBS.

Every garden should have its complement of Sweet Herbs. We can all appreciate their utility, both for Summer flavoring, and their opportune use medicinally. Their culture is so easy that none ought to be without them. Sow the seed in pan or seed bed in early Spring, transplant as soon as weather will permit. Cut them when not quite in full bloom and hang in shady place to dry. Pack away in box entirely excluded from the air.

TYING TWINE.

The tying twine, as shown in the accompanying cut, is the cheapest and handiest device for tying of vegetables and also can be utilized for tying cauliflowers in the field, cucumber vines in greenhouses, rhubarb and asparagus, and a thousand and one different uses. This twine is in the form of a loose rope (100 strings in the rope) and wound on a reel the same as barbed wire. In this manner it never becomes snarled and enables one to cut out a hundred strings any desired length instantly.

Price per reel of 50 lbs., 13c per lb. F. O. B., Milford, Conn.

The universal decision with the market gardeners is, once they have it hung in their wash house **THEY WILL NEVER BE WITHOUT IT.** INCLUDE A REEL OF IT WITH YOUR SEED ORDER.
